REDWOOD CITY NEIGHBORS UNITED

RESPONSIBLE GROWTH – NOT SALTWORKS

WHO WE ARE

- Concerned Redwood City residents and neighbors who want what's best for our community.
- United in our opposition to the Cargill and DMB proposed Saltworks Project, because we shouldn't be growing our city on the salt ponds.

WHY WE ARE CONCERNED

Our community cannot risk:

- Traffic Gridlock
- Uncertain Water Supply
- Economic Harm to Local Businesses
- Loss of Potential Wetlands
- Increased Costs to Residents
- 30,000 More People Behind Flood Levees

THE FUTURE OF OUR COMMUNITY DEPENDS ON YOU

WE HAVE A CHOICE

Redwood City's new General Plan grows our city in a way that prevents sprawl and conserves our resources. It puts over 9,000 homes in our downtown and along transit corridors, near shopping and restaurants. The General Plan has broad community support, and builders are lining up to make it happen.

But Cargill and DMB want to build 12,000 houses where they don't belong – on isolated salt ponds behind a flood levee and near the Port and heavy industries. Why let their irresponsible plans derail our community's bold vision?

PUTTING OUR CITY FIRST?

Cargill and DMB make promises and paint a rosy picture, but we're the ones living here when they go away. How would we deal with the massive influx of cars on Hwy. 101 when it is already at capacity?

DMB says they can bring their Kern County water to Redwood City, but no agencies have agreed to participate in such a complex water swap. Would this project result in future rationing or exorbitant water bills?

DMB recently defaulted on their \$47.5M loan for a shopping complex in Arizona. Would DMB honor future commitments to Redwood City?

JOIN WITH OTHERS

Add your voice to the many communities, local unions and organizations opposed to the proposed Saltworks Project including:

- Neighboring cities and towns like Menlo Park, Belmont, Portola Valley, Atherton and Woodside
- Teamsters, Longshoremen, Sailors, Warehouse Workers and Teachers
- Sierra Club, Audubon, Save the Bay and the Midpeninsula Regional Open Space District
