Julie,

So Sorry for failing to return this to you. But time simply got away from me and I thought I had responded to you.

Unfortunately I will not be able to respond to your questions. I felt that the questions (and some just a little different) were trying to get an indication on how I would vote on a project that has not yet come before the Planning Commission and I am nowhere close to even making an opinion on this matter or giving the slightest indication that I have an opinion on anything related to the Salt flats.

I have always made it very clear as Planning Commissioner and as a previous candidate running for Supervisor that it would be extremely unfair to the process, the community and to the owners of the property, who may one day submit an application to the city. Any project that comes before me as a Planning Commissioner and Council member if elected will always be based on it's merits and benefit to the city and it's residents.

If you'd like to chat about this further, I can give you a call later in the day, I happen to be on a conference call right now on another phone, but trying to do several things at once here, so I don't get behind in the day.

Warmest Regards

Ernie Schmidt

Candidate
